Benefits and Services

Centre For
Competitiveness

Northern Ireland Technology Centre
Queen's University
Cloreen Park
Belfast, BT9 5HN

Helping companies to build
sustainable competitive advantage

OUR VISION

The Centre was established by the private sector in partnership with government as a not for profit, independent, membership organization to actively support the development of an internationally competitive economy through innovation, productivity, quality excellence & sustainability in the public, private and voluntary sectors of the economy.

The Centre for Competitiveness membership offers access to a cutting-edge suite of performance tools and strategies for both individuals and organisations. Our resources provide the data and insight needed to revolutionize the way you work. Bringing together an international network of vision creators and change makers, our membership offers a collaborative ecosystem for organisational improvement.

OUR PARTNERS

OUR CFORC BOARD MEMBERS

OUR SMART GRID IRELAND BOARD MEMBERS

SGI is an all Ireland energy networking cluster, facilitated by CforC.
