

SMART GRID IRELAND

2022 Membership

WHAT WE DO

Smart Grid Ireland is an independent, industry led networking cluster influencing government and regulation, promoting good corporate citizenship and actively driving technology solutions that accelerates the cultural and societal changes needed to achieve a digitalized, decentralized and decarbonised electricity network and improve the Island of Ireland's international competitiveness.

BOARD MEMBERS

OUR AIM

Our aim is to contribute to the deployment of a highly decarbonised electricity grid on the island of Ireland by 2030.

Smart Grid Ireland and its members seek to:

COLLABORATE: *Work closely with all stake holders to progress initiatives that benefit the energy community on the island of Ireland*

INFORM: *Supply expert insight on the evolution of energy delivery to Ireland's consumers and the likely impacts on the Grid*

CONNECT: *Offer a forum for system operators, industry and researchers to join together to shortcut idea generation and realisation*

ENABLE: *Empower large and small enterprise to achieve their ambitions and deliver innovations which benefit Ireland's energy markets.*

CREATE: *Stimulate Ireland's two economies by supporting the decarbonisation of the economy allowing energy industries and innovations expand their businesses to grow employment opportunities.*
